

MR-16 ULTRALINE™ SERIES

- Only for Use in Approved Halogen Fixtures
- 10,000 Hours Average Life
- 2 inch Diameter Titanium Oxide Coated Reflector
- Lasts Up to 2 Times Longer Than Other MR-16 Lamps
- Low Voltage - 12 Volts
- Consistent Color
- Integrated UV Protection
- Precisely Focused Light Cone
- Cool Beam Effect
- Up to 60 Degree Beam
- Universal Burn Position
- Front Glass Cover (FG)

GU5.3

The exceptional performance of the **Ultraline™** MR-16 reflector lamps are a result of new advancements in our filament design and gas fill technologies. Manufactured under ISO 9001 guidelines, refinements in the reflector coating process slows deterioration of the reflector, allowing Ultraline™ lamps to maintain their consistent Halogen color throughout the life of the lamp.

Rated at more than twice the life of other MR-16s on the market today, Ultraline™ lamps are an astute choice for applications where frequency of lamp changes and cost of ownership are significant factors. The Halogen capsule helps to protect ultraviolet sensitive objects by eliminating 90% of harmful UV emissions.
