

## Mechanical Control Panels

Designed to handle most pool & spa applications, Intermatic's rain tight enclosures are some of the best known and most respected products in the pool industry.

- All of Intermatic's panels are produced in house on a fully automated assembly line to ensure quality control and reduce production time and manufacturing costs
- Easy to install and operate
- Easy set "Yellow Dial" timer makes adjustment a snap
- Removable trippers allow users to customize ON and OFF operations to their applications
- Large panels provide plenty of room for wiring
- Intermatic maintains the industry's lowest return and failure rates
- Installation and operation instructions provided in multiple languages
- Available in metal Nema 3R enclosures
- Made in the USA for ensured reliability
