

SMOKE ALARM

BRK®

THE PROFESSIONAL STANDARD

CAT. **FG250B Series**

DUAL IONIZATION

Dual Ionization sensing chamber. Generally more effective at detecting small particles produced by flaming fires. Sources may include paper or kitchen grease.

SILENCE FEATURE

Silences nuisance alarms

TAMPER RESISTANT LOCKING PIN

Locks alarm cover to prevent removal of battery. Perfect for apartment, dormitory or hotel applications.

9V BATTERY INCLUDED

APPROVED FOR RV USE

Available in the following versions:

FG250B Silence with Carbon Zinc Battery

FG250AB Silence with Alkaline Battery

FG250LB Silence with Lithium Battery

9V Battery Powered

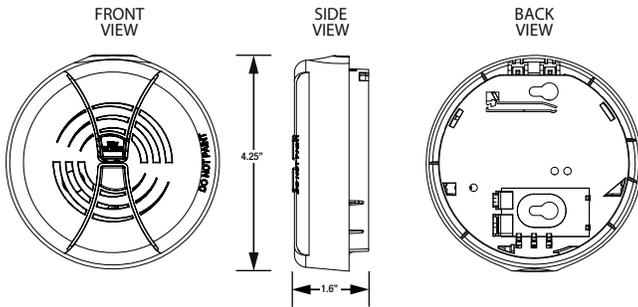

Description:

BRK Model FG250 is a single station smoke alarm specifically designed for residential and institutional applications including sleeping rooms of hospitals, hotels, motels, dormitories, and other multifamily dwellings as defined in standard NFPA 101. Model FG250 has been fully tested and complies with, UL217, CSFM, NFPA 72, and NFPA 101 and other agencies that model their codes after the above agencies. It meets building codes where DC with Silence smoke alarms are required and with model building codes published by the ICC.

BRK Model FG250 is a state of the art smoke alarm designed to provide early warning of a fire. It features a fully insect screened dual ionization smoke sensing chamber, an 85dB horn, a supervised 9V battery power supply, a full function test switch, a silence feature to silence unwanted nuisance alarms, a red LED light that indicates DC power or alarm. It also features a tamper resistant locking pin that locks alarm cover to prevent removal of battery. Perfect for apartment, dormitory or hotel applications. The compact, low profile design complements any décor. Battery installation and removal can occur while the unit is mounted to the ceiling or wall via the hinged cover. When voltage drops to a pre-set warning level, the horn will "chirp" approximately once per minute to indicate a fresh battery is needed. To insure the battery is always replaced properly, the cover is designed to resist closing when the battery is missing. Designed for wall or ceiling mounting. Includes mounting anchors and screws. Approved for use in recreational vehicles.

CAT. FG250B Series

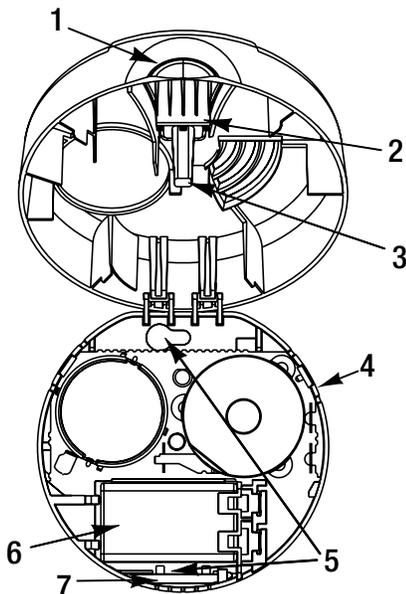

ARCHITECTURAL AND ENGINEERING SPEC

The smoke alarm shall be a BRK Model FG250 and shall provide at a minimum the following features and functions:

1. A dual ionization sensing chamber.
2. The unit shall be capable of self restoring.
3. A fully screened sensing chamber to resist entry of small insects thereby reducing the probability of unwanted alarms.
4. Powered by a supervised 9V battery and a solid state piezo horn rated at 85dB at 10 ft.
5. A visual LED power-on indicator to confirm unit is receiving power or is in alarm.
6. A full function test button. The test button should check all alarm functions by stimulating the chamber to simulate a smoke condition, causing the unit to alarm. Model FG250 also has a silence feature to silence unwanted nuisance alarms.
7. A tamper resistant locking pin that locks alarm cover to prevent removal of battery.
9. The unit shall be capable of operating between 40°F (4°C) and 100°F (38°C) and relative humidity between 10% and 90%.
10. The unit shall contain mounting hardware and shall be listed for wall or ceiling mounting.
11. The unit shall at a minimum meet the requirements of UL217, CSFM, NFPA 72, NFPA 101, ICC.
12. The unit shall be suitable for use in Recreational Vehicles.

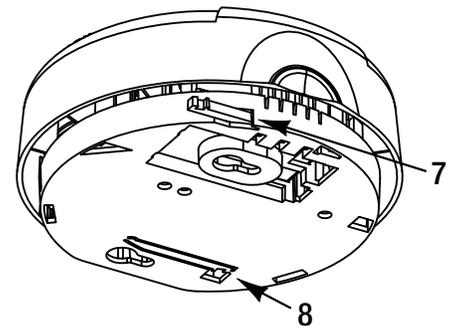

INSTALLATION OF ALARM

Installation of this smoke alarm must conform to NFPA 72. Always check your local building codes. Follow all instructions for placement as outlined in the user's manual in sections titled "Recommended Locations for Smoke Alarms" and "Locations to Avoid for Smoke Alarms".

The parts of this smoke alarm

1. "Open Here"
2. "No Battery" tab
3. Test button or Test/Silence button
4. Smoke alarm base
5. Mounting slots
6. Install 9V battery here
7. Locking pin slot
8. Locking pin: Remove and insert in 7

TECHNICAL SPECS

| | |
|---------------------|--|
| Alarm Dimensions: | 4.25" dia x 1.6"H |
| Weight: | 4.8 oz. |
| Operating Volatage: | 9V Battery Powered |
| Temperature Range: | 40F (4C) to 100F (38C) |
| Humidity Range: | 10% to 95% relative humidity (RH) |
| Audio Audio Alarm: | 85dB at 10 feet |
| Test/Silence: | Electronically simulates smoke condition, causing the unit to alarm and silences unit. |
| Alarm Reset: | Automatic when smoke clears |
| Smoke Sensor: | Dual Ionization |
| Indicator Lights: | |
| DC Power: | Intermittent Red Light |
| Listing: | Listed to UL217 Standard |
