

16W EL/A R30 IBC

Product family description

Looking for an energy saver that does not look like one? The Philips EnergySaver family provides energy efficient lighting options that don't just provide similar light as your standard incandescent light bulb, they also have the same classic shapes. Philips EnergySaver reflector flood compact fluorescents reduce operating costs without sacrificing light quality compared to incandescent equivalents. With dimmable and hard glass options, they are ideal for recessed and track lighting indoors and outdoors.

Features

- Provide soft white light with excellent beam control.
- Lasts at least 7 years*.
- Save up to 75% in electricity costs when compared to an equivalent incandescent bulb.
- The glass coating enables excellent lumen maintenance.
- Circuit designed with end of life protection.
- Available in: 14 watt R20,15 and 16 watt R30, 20 and 23 watt R40 and Par 38, and 23 watt Par 38 and 16W PAR 30 2 piece versions.
- * Based on approximately 3 hours usage per day/7 days per week.

Benefits

- Philips Energy Saver Reflectors provide energy savings and reduced operating costs without sacrificing quality of light compared to standard incandescent equivalents.
- RoHS compliant.
- Dimmable Reflectors are dimmable to 10% of full light levels and available in PAR38,R30 and R40. Hard glass, or "flat face" reflectors offer solid, heavy-duty construction with excellent beam control.

Application

- Ideal for use in recessed fixtures or track lighting.

Notes

PHILIPS

- *Based on an average daily usage of 3 hours per day, 7 days per week.
- Approximate initial lumens - the lamp lumen output is based upon lamp performance after 100 hours of operating life under standard laboratory conditions.
- Rated Average Life-Average life under specified test conditions with lamps turned off and restarted no more frequently than once every 3 operating hours. Use in recessed cans or enclosed indoor fixtures could result in reduced lamp life.
- Amalgam Technology provides stable light output from -4F to 122F.
- Warnings and Cautions - Some electronic timer and photo sensor switches contain dimming circuitry, so before using such a switch check with it's manufacturer to ensure compatability with electronic CFL bulbs. Do not use with emergency exit fixtures or lights. Outdoor use requires a weather-protected fixture. Turn off power before changing bulb. The device complies with Part 18 of the FCC rules.
- Reliable operating temperature range -4F/-20C to 122/50C.
- This product may cause interference with radios,televisions, telephones or remote controls. If interference occurs, move this product away from device or plug into another outlet.
