

I 4W EL/O Outdoor Post I BC

Product family description

Looking for an energy saver that does not look like one? The Philips EnergySaver Outdoor family provides energy efficient lighting options that don't just provide similar light as your standard incandescent light bulb. Available in reflector flood, bug away, and post varieties. Try the Philips EnergySaver Outdoor family of products and see how they truly provide advanced lighting designed around your needs.

Features

- Translucent cover on reflector and postlight reduces glare.
- Outdoor Bug a way does not attract insects.
- Last at least 7 years*
- Save up to 75% in electricity costs when compared to an equivalent incandescent bulb.
- Available in: 14 watt bug a way and postlight; 23 watt reflector.
- * Based on approximately 3 hours average usage per day/7 days per week

Benefits

- The Philips Energy Saver Outdoor Family provides energy savings and reduced operating costs without sacrificing quality of light compared to standard incandescent equivalents.
- Provides an incandescent-like light.

Application

• Ideal for use in outdoor applications, outdoor postlights, recessed fixtures and open hanging fixtures.

Notes

• *Based on an average usage of 3-4 hours, 7 days per week.

- **Energy savings based on wattage saved x replacement lamp rated average life (8,000 hours)/(1000 x \$0.10 kWh rate).
- Approximate initial lumens-the lamp lumen output is based upon lamp performance after 100 hours of operating life under standard laboratory conditions.
- Average life under specified test conditions with lamps turned off and restarted no more frequently than once every 3 operating hours. Use in recessed cans or enclosed fixtures could result in reduced lamp life.
- Amalgam technology provides stable light output from -10F to 120F.
- Energy Star Bulb: As an Energy Star Partner, Philips has determined that this product meets the Energy Star guidelines for energy effeciency.
- Warnings and Cautions Do not use with dimmers. Some electronic timer and photo sensor switches contain dimming circuitry, so before using such a switch check with it's manufacturer to ensure compatability with electronic CFL bulbs. Do not use with emergency exit fixtures or lights. Outdoor use requires a weatherprotected fixture. Turn off the power before changing bulb. The device complies with Part 18 of the FCC rules.
- Reliable operating temperature range -10F/-23C to 120F/48C.
