This energy saving example shows an application of 100 lamps in a space currently using 100 incandescent 60W, 800 lumen A-lamps, operating 3,000 hours per year at a cost of \$0.10 per kWh.<sup>†</sup> Your actual savings may vary depending on the energy costs in your geographic location.

Replacing 100 standard incandescent 60W 800 lumen A-lamps with Philips 12.5W EnduraLED A19 lamps can provide significant energy cost savings of \$1425 per year! Potential savings from the reduction in HVAC costs as a result of using a lower wattage lamp that emits less heat is an additional benefit not included in this example.

<sup>†</sup> Light output of the 12.5W EnduraLED A-shape at 800 lumens compares to the 60W standard incandescent A19 at 800 lumens.
