

APPLICATION RATES

Amounts in ml/gallon (4l) 1 teaspoon=5 ml 1 tablespoon=15 ml 1 ounce=30 ml 1/2 - 1 gm = 1/4 - 1/2 tsp 3/4 gm = 1/4 tsp

Plant Phase	Seedlings	Mid-Size Vegetative	Vegetative	Transition	Fruiting & Flowering						
					Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7
Cal-Mag Plus	0	5*	5-7*	5	5	5	5	5	5	5	0

*when growing with reverse osmosis water or in coco media use a minimum of 5 ml of Cal-Mag Plus during the first 2 weeks. For best results, foliar feed plants weekly with Liquid Karma at 10 - 15 ml/gallon.

Directions:

Soil Containers Gardens: Use 1 tsp (5 ml) per gallon (4 l) of water.
 Accelerated Formula: Use 2 tsp (10 ml) per gallon (4 l) of water.

Hydroponic (Aeroponics, NFT, Soilless Mix):

Use with preferred hydroponic formula. Desired range of nutrients are:
 Nitrogen (N) 160-250 ppm Calcium (Ca) 160-280 ppm
 Magnesium (Mg) 45-75 ppm Iron (Fe) 2-7 ppm

For best results:

Use with every watering with standard fertilizer program. The recommended application rate is normally sufficient to make up for any deficiencies in most soil or hydroponic formulas.
 ***Note - in hydroponics, iron falls out of the solution relatively fast due to use of magnetic driven pumps without grounding probes and high levels of dissolved oxygen from air stones and pumps.

Guaranteed Analysis:

Total Nitrogen (N) 2.0%
 2.0% Nitrate Nitrogen
 Calcium (Ca) 3.2%
 Magnesium (Mg) 1.2%
 1.2% Water Soluble Magnesium (Mg)
 Iron (Fe) 0.1%
 0.1% Chelated Iron (Fe)

Derived from: Calcium Nitrate, Magnesium Nitrate, Iron EDTA.

FOR MORE ROBUST PLANTS

Benefits of using Cal-Mag Plus:

- Prevents blossom end rot in tomatoes and peppers and tip burn in lettuce and cabbage.
- Prevents dry and withered flower and fruit sets.
- Prevents interveinal chlorosis, stunted growth rates, and upward leaf curl.
- Increases cell division and plant tissue development.
- Increases flower and fruit sets.
- Increases water, nutrient, and carbon dioxide uptake.
- Increases growth rates and crop maturity.

CAL-MAG PLUS™

Calcium, Magnesium & Iron Supplement

Cal-Mag Plus is a specialized plant supplement designed to compensate for the deficiencies in some nutrient fertilizer programs and concentrated liquid, hydroponic nutrient formulas. It prevents blossom end rot in plants such as tomatoes and peppers and tip burn in lettuce by acting as a catalyst for major elements to work in symbiosis with one another.

Cal-Mag Plus contains: calcium, magnesium, iron, boron, zinc, manganese, molybdenum, copper, cobalt, iodine, beneficial vitamins, twenty essential amino acids and select botanical plant extracts to help in the production of fruits and vegetables in fruit and flower bearing plants.

Standard Strength Dilution (5 ml nutrient per 4 liters water) will achieve approximately:

N 53, Ca 84, Mg 31, Fe 2.6

Cal-Mag Plus:

- For Hydroponics, soil, container gardens.
- Tomatoes, Peppers, Lettuce, fruit and flower bearing plants.
- Use with Botanicare® Nutrients or preferred nutrient program.
- Use with reverse osmosis water.
- Use with Botanicare's Cocogro™ Coir Fiber.

Coir Fiber:

Use CalMag Plus™ with Pure Blend Pro Soil™ formula for great results in any Coir Fiber application.
