Maestro®

convenience, style and comfort for every room in your home

Experience the features of Maestro.

- Lights gradually fade on or off
- Full-range dimming of your light from up to 10 locations
- Delayed fade-to-off allows you to leave the room before the lights turn off

Rocker adjusts light level to suit any activity

LEDs indicate light level, as well as glow softly, so you can find the dimmer in the dark

Large tapswitch turns light on/off to preset level; tap twice for full on, press and hold for delayed fade-to-off

Maestro digital fade dimmer and wallplate in hot.

Maestro IR® remote control | family room

convenience

Select your favorite light level for any activity with a touch of the silver button.

- Dim the lights to watch television, or bring them up to full brightness for reading, without leaving the comfort of your couch.
- The remote control is compatible with learnable remotes enabling you to control your stereo, t.v., and lighting with one remote.

Maestro IR digital fade dimmer and wallplate in white.

style

Add lighting control to make your kitchen as versatile as any other room in your home.

- Brighten lights at breakfast, when preparing meals, or for cleaning up. Dim lights during family meal time.
- Stainless steel wallplates and black lighting controls coordinate with appliances, counter tops, back splashes, and cabinets to create a seamless, contemporary look.

Maestro digital fade dimmer in midnight with wallplate in stainless steel.

Maestro® fan controls | bedroom

comfort

Control your fan and light from the wall or remote control.

- When the room temperature changes, use the remote control to adjust the fan speed to achieve total comfort—without getting out of bed.
- 7 quiet fan speeds enhance range of comfort.
- Brighten the lights just enough to find your way in the middle of the night.

Maestro IR® fan/light control
and wallplate in white.

Maestro® dimmer and timer | bathroom

ease

Dim your lights and automatically turn your fan off with one control.

- Dimmed light provides a gentle night light, or softens the transition into your morning routine.
- Set the timer to automatically turn the fan off and save energy.
- Reduce mold and mildew by using the countdown timer after a shower to eliminate moisture from the room.

Maestro dimmer/countdown timer and wallplate in biscuit.

Maestro® dimmers | hallway and staircase

peace of mind

Dim the lights from every entrance to your hallway or either end of your staircase.

- Always have the ability to adjust the light level from any location to enhance convenience and safety.
- Easily replace existing switches with multi-location dimmers.
- Dim the lights to create a gentle, reassuring night light or guide you safely at night.

❷ Maestro companion dimmers and wallplates in goldstone.

Maestro Wireless® | remote lighting control

wireless control

Enhance your safety by conveniently controlling your home's interior and exterior lights from your car.

The Maestro Wireless controller easily attaches to your car's visor, and is compatible with HomeLink®-equipped vehicles.

- Maestro Wireless uses radio frequency (RF) technology. RF signals travel through walls and floors so you don't have to be in the same room as your lights to control them.
- Place the controller on a bedside, mount it on a wall, or use it as a hand-held device. You can purchase controllers separately, allowing you to control each dimmer with up to four wireless controllers.
- Replace your existing switch with the Maestro Wireless dimmer in as little as 15 minutes to gain wireless control.

NEW Maestro Wireless dimmer and controller enables control of the lights from up to 100 feet.

breadth of line | complete solution

coordinate

Together, Maestro® digital fade dimmers, switches, fan controls, and accessories provide a complete solution throughout your home.

Lighting types:

- incandescent lighting
- magnetic low voltage lighting
