

All Active Air Combo Kits Include:

Active Air Filters offer features and performance that rival the competition - but at a value price. All filters are maintenance free and feature long-lasting activated virgin charcoal that keeps your air odor-free.

- Corrosion-resistant galvanized steel
- Changeable Velcro pre-filter to collect dust and airborne particles
- Shrink wrap to protect the charcoal and keep the filter clean
- High grade activated charcoal to guarantee maximum odor control
- Large surface areas and 2.5" thick carbon bed results in optimum odor control and maximum efficiency.
- No maintenance required
- Charcoal is carefully packed to insure a consistent and even air flow throughout the carbon bed for a full usage of the filter and its durability
-

Active Air In-Line Duct Fans offer innovation and performance at a great price. With a full line of fans to meet your needs, all Active Air Fans feature:

- Quiet Operation
- Durable Ceramic-Coated
- Metal Housing
- UL Recognized Components
- High Quality Molded Impeller
- Thermally Protected AC Motor
- Includes Mounting Brackets
- Includes 8 Foot Pre-wired 120v Cord

Active Air Flanges - Include sealing foam and six screws for easy fit.

Pre-filter - Individually shrink-wrapped and sized to fit specific filters

Premium Ducting - Superior performance. Comparable to the leading premium ducting on the market. This 25' ducting is air-tight, easy to install, and resists tearing and punctures. The smooth interior also aids in noise reduction. Set of 2 stainless steel clamps included.
