Give Your Plants A Head Start On Giving You Better Flowers

Your plants need Phosphorus and Potassium (P&K) from the earliest days of bloom phase so they can maintain nutrient healthy roots, vigorous growth, sturdy stems and stalks, and maximized production of flowers. Feed Bud Blood to your plants as soon as you switch to 12 hour lighting so your plants get the P and K they need for a successful bloom phase.

Bud Blood has been specially designed for use with all hydroponics, sphagnum, coco coir and other growing media.

Bud Blood has been developed for use with any and all hydroponics and continuous liquid feed growing systems (aeroponic, drip irrigation and emitters NFT, flood & drain).
