

## COLOR-BRITE™ T10

### Linear Fluorescent Lamps

T10

#### Features and Benefits

##### Color-Brite

- TCLP Compliant
- High 88 CRI
- Bright 5000K color
- 3,700-6,800 lumens
- Improves color rendition and visual acuity
- 1 to 2-year warranty

#### Applications

- Color-critical applications
- Retail stores
- Hospitals
- Shopping malls
- Office buildings
- Dental offices

#### Better Light and Color with Litetronics T10 Lamps

T10 Color-Brite™ lamps contain the highest grade phosphor, allowing them to deliver a CRI that is 36% closer to sunlight than cool white fluorescents. With a 5000K temperature, Color-Brite lamps offer a much closer resemblance to natural light. They enhance colors and textures, improve visual acuity, and are ideal for businesses where colors must be accurate.

Litetronics linear fluorescent lamps are TCLP compliant. The low mercury content of these lamps meets all government safety standards, and the lamps' long life cuts down on waste. The green ink on every Litetronics fluorescent lamp lets you know that it is an environmentally friendly choice.
