BUBBLE TOP SHOP LIGHT FIXTURES

In almost any garage or workshop location, the standard go-to lighting fixture is a fluorescent tube hanging shop light. Energetic Lighting provides a full selection of LED shop lights for those looking to replace existing fluorescent fixtures. Our LED shop lights are designed to output a wide beam angle of light to create a safe and well-lit workplace, all while cutting electricity usage and maintenance costs associated with traditional fluorescent tube fixtures.

FEATURES

- Built-in on/off pull chain
- Energy efficient
- Long life
- Metal housing construction
- White painted finish
- Suitable for damp locations
- Grounded plug and cord included
- Mounting chain and hooks included

APPLICATIONS

- Architectural lighting
