

BioRoot® is a natural plant growth supplement that helps plants establish vibrant, vigorous root systems. BioRoot is outstanding for seedlings and cuttings as well as all phases of plant growth. Use BioRoot with all types of plants growing in all kinds of garden soils and potting mixes. Works with all plant foods.

General Organics provides gardeners with a complete line of superior organic based plant foods and supplements. Each product in the "GO" line enables you to enrich your garden, your life, and the planet. General Organics foundation rests upon our deep commitment to provide simple and innovative products with unsurpassed quality.

Usage:

For Light Feeding:

Add 1 teaspoon of BioRoot per gallon of water.

For Heavy Feeding:

Add 2 teaspoons of BioRoot per gallon of water.

For additional growing information please refer to our website at www.genhydro.com.

BioRoot®

root booster
