Material Safety Data Sheet Roots Organics Natural and Organic Potting Soil

Last Revision: December, 2009 Emergency Phone: (541) 913-9612

Product Identification

Name: Natural and Organic Potting Soil

Chemical description: Basic soil type mix containing perlite, pumice, coir (coco fiber), compost and an

organic fertilizer blend which physically is a loose organic and mineral combination

Hazardous components: Silica Dust

Company: Aurora Innovations, Inc. (541) 359-1580 www.aurorainnovations.com

Physical/Chemical Characteristics

Boiling point
Vapor pressure
Vapor density
Evaporation rate
Melting point
Not applicable
Not applicable
Not applicable
Decomposes >400 F

Specific gravity Not applicable

pH 6.8 @ 10% dispersion in water

Solubility in water Insoluble, except for some organic fertilizer components which have low

solubility

Appearance Dark brown with white specks, coarse organic solid

Odor Earthy

Fire and Explosion Information

Flash point Not applicable

Flammable limits May char or smolder if exposed to fire, will not burn

Extinguishing media Water, CO₂

Special fire and explosion hazards May emit corrosive fumes when charred by intense heating

Reactivity Data

Stability Stable at normal temperatures Conditions to avoid Contact with strong oxidizers

Incompatibility Strong alkalis will release ammonia fumes

Hazardous decomposition Ammonia may form if product is strongly heated or oxidized

Hazardous polymerization Will not occur

Spill or Leak Procedures

If spilled, simply sweep or vacuum up spilled product, dispose as soil.

Decontamination is unnecessary. No environmental hazards.

Health Effects/First Aid Information

Inhalation: Remove to fresh air, if breathing difficult, administer oxygen. Consult physician.

Eyes: Will irritate on contact, wash out quickly to remove all particulate matter.

Ingestion: For small amounts, drink plenty of water. More than a mouthful should be purged by vomiting, but only if victim is conscious.

Skin: Wash with soap and water.

Signs/symptoms of exposure: Product components are soil like in nature and are non-toxic, non allergenic, and non pathogenic to mammals. No known chronic effects.

Carcinogenicity: Silica dust is listed as a carcinogen in California, other ingredients not listed as carcinogenic in NTP or IARC listings. Not OSMA regulated.

Precautions for Safe Handling and Use:

Respiratory protection: Not normally needed. If dusting occurs, use approved respirator to eliminate exposure.

Ventilation: Exhaust fan recommended for dust control.

Protective gloves/clothing: Rubber or plastic recommended if repeated or prolonged contact expected.

Eye protection: Chemical splash goggles recommended where dust is expected. Safety glasses suffice otherwise.

Work practices: Use good housekeeping practices.

Spills: Avoid creating dust when cleaning up. Scoop, shovel or sweep to labeled containers for recycling/salvage, if not contaminated by other material.

Waste disposal method: Package material for removal to approved landfill.

Precautions for storing and handling: None
