

Powerful. Simple. Effective. Heavy 16 base nutrient is an artisan blend featuring essential elements that plants require to produce maximum yields of unsurpassed quality.

Heavy 16 Features:

- Chelated micronutrients for maximum absorption
- 4 forms of Calcium for cascading nutrition delivery
- 3 forms of Nitrogen for added complexity

Use as a two-part nutrient and our premium selection of Heavy 16 additives for professional-grade results.

HEAVY 16™

Use Heavy 16 in equal parts. Measure and add Part A to your reservoir. Rinse measuring cup thoroughly. Add an equal dosage of Part B to your reservoir. Use the chart below for dosage guidelines. Find additional product information and expert grow advice at www.HEAVY16.com

Guaranteed Analysis:

Total Nitrogen (N)	5.0%
0.10% Ammoniacal Nitrogen	
4.7% Nitrate Nitrogen	
0.2% Urea Nitrogen	
Soluble Potash (K2O)	1.0%
Calcium (Ca)	5.5%
Iron (Fe)	0.10%
0.10% Chelated Iron	
Molybdenum (Mo)	0.0008%

Derived From: Calcium Nitrate, Potassium Nitrate, Iron DTPA, calcium acetate, calcium gluconate, calcium chloride, sodium molybdate, and urea ammonium nitrate

PROFESSIONAL PLANT NUTRIENT

Professional Grade. Artisan Quality.

5.0-0-1.0

VEG-A

4L (1.06 Gal)

Nutrient	Veg A & B		
Crop Phase	Clones	Early Veg	Late Veg
Per Gallon	3-5 mL	5-8 mL	8-10 mL
Per Liter	1.3 -2.1 mL	1.3-2.1 mL	2.1-2.6 mL

Shake Well – Natural Settling is Normal
