No Powdery Mildew™ Benefits:

Works Immediately Within Hours Not Days

🚺 100% Effective

100% Safe For Humans & Pets

Non- Toxic

No Residues

No Harsh Chemicals

🌃 Fresh/ Clean Aroma

Can Be Used Anytime Up To Day Of Harvest

Attack Your Powdery Mildew Outbreak With A 98% Efficacy Rate Upon 1st Application

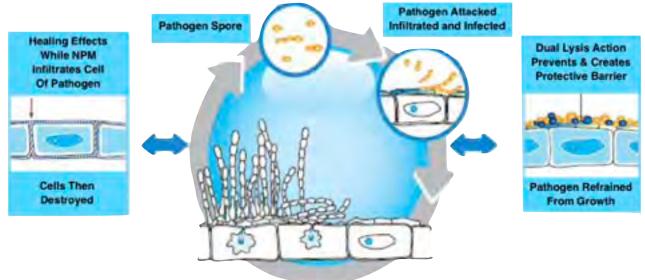

Use No Powdery Mildew™ Anytime Up To Day Of Harvest!

No Powdery Mildew[™] attacks powdery mildew spores immediately and on contact. Powdery mildew spores do not stand a chance against the powerful, scientifically advanced, nano surface technology. Simply put, *No Powdery Mildew™ JUST FLAT OUT*

WORKS!

No Powdery Mildew[™] dual lysis actions attacks powdery mildew spores at the mycelium. Then, No Powdery Mildew[™] destroys the powdery mildew cell pathogen while simultaneously providing your valuable crops with a natural plant extract barrier of protection. Our natural plant oil and extract technology evaporates completely while leaving your valuable fruits & vegetables free from harmful chemical, odors, aroma' or aftertastes.

The above photo demonstrates the restriction of spore germination after one single application of No Powdery MildewTM. No Powdery Mildew has 98% efficacy rate on the restriction of further spore germination upon 1st application.
