<b>Week 11 Ripen / Rinse</b>	~	~	~	~	~	~	~	~	

### Soil Gardening Tips:

- Keep nutrient solution temperature below 75° F (24° C).
- Use dechlorinated water for best results.
- Adjusting pH is not necessary.
- Double BioThrive application rates for heavy feeding plants.

- Apply nutrient solution within 1 hour of mixing or aerate solution until application.
- BioMarine and Diamond Black are optional.
- Advanced soil growing techniques can be found at:
