Commercial Spec

ZR Series LED Troffers

Exceptional Lighting at a Lower Cost

A winning combination of performance and price.

Contractor

UR Series LED Upgrade Kit

Retrofit Solution Made Easy

Minimize expenses without impacting quality and safety.

What is Cree TrueWhite® Technology?

Cree TrueWhite® Technology is a revolutionary technology delivering our exclusive combination of industry-leading efficacy (up to 130 lumens per watt), 90+ CRI and consistent warm or cool color temperatures. The result is beautiful white light with superior color rendering, color consistency over time and temperature, all while using a fraction of the energy of traditional light sources – a true no compromise solution.
