		6615-P*	Single Pole, Incandescent, 600W, 120V

Note: All above dimmer compatibility with our product has been tested. Dimmers that do not appear in above list might still be compatible but have not been tested.

* Very minor flickering might occur at the very minimum level when load consists of one lamp only. There are no flickering at all for 2 lamps and more.

** Minimum load of 2 lamps is required for good dimming performance
