

GE Consumer & Industrial  
Lighting

# ConstantColor<sup>®</sup> CMH<sup>®</sup> 20 Watt PAR Lamps

These exclusive GE ConstantColor<sup>®</sup> CMH<sup>®</sup> ceramic metal halide lamps provide lamp-to-lamp color uniformity and terrific energy saving solutions. Available in PAR 20 and PAR 30

**Energy  
Saving  
Solution**

## **Color uniformity lamp-to-lamp**

Ceilings will look clean and bright, with minimal color variation lamp-to-lamp. ConstantColor<sup>®</sup> CMH<sup>®</sup> provides a consistent "white look", which is critical for interior applications.

## **Long life**

2 - 3 times longer life than Incandescent or Halogen PAR lamps.

## **Highly efficient**

4 times more lumens per watt than Incandescent or Halogen PARs.

## **Excellent color rendering**

Warm white light (3000K) and exceptional color rendering (>80 CRI) make ConstantColor<sup>®</sup> CMH<sup>®</sup> an ideal source for indoor applications.

**GE - Innovative,  
Energy-Saving Lighting**

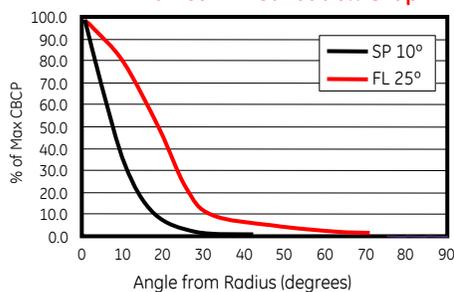

**GE imagination at work**

# ConstantColor® CMH® 20 Watt PAR Lamps

Chromaticity Coordinates: Y	0.41	0.41	0.41	0.41	0.41

**WARNING** - These lamps can cause serious skin burn and eye inflammation from short wave ultraviolet radiation if outer envelope of the lamp is broken or punctured and the arc tube continues to operate. Do not use where people will remain for more than a few minutes unless adequate shielding or other safety precautions are used. Certain types of lamps that will automatically extinguish when the outer envelope is broken or punctured are commercially available from the General Electric Company. If the outer envelope breaks or is punctured and the lamp continues to operate, immediately turn power off and remove lamp after it has cooled. These lamps are certified to comply with FDA radiation performance standards, 21 CFR Subchapter J.
