

## Assembly Instructions

### TreeKeeper Multi Use Holiday Storage Bag

Item No. TK-10163

#### Kit Includes:

- 2 Short Vertical Rods
- 2 Long Horizontal Rods
- 1 Storage Bag

1. Insert one of the **SHORT** rods vertically into the corner of the bag on same side of the bag as the wheels. Find the pouches to insert the rod in the upper and lower corners of the bag.

2. You may have to bend the rod slightly to fit into the corner pouch. **NOTE:** there are **ONLY** two rods in the Wheel side of the bag, the opposite side of the bag is already assembled from the factory.

3. Assemble the long rods by connecting the two halves together in the middle at the coupler. Insert one long rod into a pouch at the top corner of the **LONG SIDE** of the bag horizontally.

4. Secure the opposite side of the long rod into the opposite side of the bag. You may have to bend the rod slightly to fit into the pouch.

5. Fasten the Velcro strap around the middle of the horizontal long rod. Repeat steps 3-5 for the other horizontal rod.
