# Bridging science with the ARCHITECTURE OF LIGHT

At Lighting Science, our engineers design LED lighting that can help you save energy, reduce your environmental impact, and provide superior lighting quality for every environment. Whether you are looking to improve your overall lighting quality or cut your energy bill, our LED lamps provide the best solution for every lighting application.

Lighting Science delivers LED lighting solutions for better living and a healthier planet.

# Beautiful lighting quality with outstanding PERFORMANCE

The latest LED lamp series from Lighting Science achieves superior performance through efficient power supplies, unique thermal solutions, top-tier LED technology, leading edge optical control solutions and rigid binning techniques that result in visually pleasing quality of light for all retrofit applications.

#### WHY CHOOSE LIGHTING SCIENCE?

- ENERGY STAR qualified lamps available throughout line to meet rebate requirements
- No UV or infrared light safeguarding vibrant colors and inventory
- Innovative thermal management for reduced heat generation
- · Longer life than traditional lamps
- Dimmable down to as low as 10% with a wide array of dimmers
- Instant-on with no warm up, unlike CFL
- Extensive range of color temperatures
- Incandescent equivalents up to 120W
- RoHS compliant-contains no mercury or lead
- 5 year limited warranty

# PAR38

#### **FEATURES**

- Lower wattage lamps requires 80% less power than comparable halogen lamps.
- · Dimmable to 10% on most dimmers.
- Four available color temperatures and two available beam angles.
- Suitable for wet locations.
- Maintenance free operation, lasts up to 40x longer than incandescent lighting.
- RoHS compliant Contains no Mercury or Lead.

#### **BENEFITS**

- Reduced energy usage decreases energy related costs.
- Variable light intensity creates optimal light quality.
- Offers a multitude of combinations and directionality to fit almost any need or application.
- Long rated life reduces maintenance cost.
- Innovative materials reduce waste and environmental impact.

#### **APPLICATIONS**

• Accent or security lighting for commercial, residential and retail applications.

Specifications supplied are nominal. Please refer to the DOE's Lighting Facts

Specifications supplied are nominal. Please refer to the DOE's Lighting Facts Tolerance Guidelines.

1 Savings based on Bhrs/day annual hours of operation, \$0.114 average cost per KWH. \$40/hr. cost of labor and 15 minutes maintenance time to change lamp.

2 Dimmer compatibility list indicates those dimmers that have been tested and operate properly under normal conditions. In certain cases, approved dimmers are offered in higher wattage varieties that are also compliant and allow the installation of additional lamps if kept within the maximum inrush current equivalent provided in the table. Each application is unique and various factors such as load, common neutrals or other electrical products on the circuit can, in certain instances, cause variance in system performance. Consult dim\$1ng system manufacturer for additional support in operation.

3 Values are nominal, advances from further innovation, specifications are subject to change.

# **A19**

#### **FEATURES**

- 80% more efficient than comparable incandescent lamps.
- · Dimmable to 10% on most dimmers.
- Omni-directional design in three wattage equivalencies.
- Maintenance free operation, lasts over 50x longer than conventional lighting.
- RoHS compliant contains no mercury or lead.

#### **BENEFITS**

- Reduced energy usage decreases energy related costs.
- Variable light intensity creates optimal light quality.
- Smooth and uniform light to create a well-balanced environment.
- Long rated life reduces maintenance cost.
- Innovative materials reduce waste and environmental impact.
- Installs easily into new or retrofit applications.

#### **APPLICATIONS**

• Ideal for table and floor lamps in residential, retail, hospitality and office applications.

Available in 40W, 60W & 75W equivalents

# **GP19 & GP19 3-WAY**

#### **FEATURES**

- Up to 84% more efficient than comparable incandescent lamps.
- GP19 3-Way offers three power options equivalent to 25, 40, & 60W incandescent lamps.
- Maintenance free operation, lasts over 20x longer than conventional
- RoHS compliant contains no mercury or lead.

#### **BENEFITS**

- Reduced energy usage decreases energy related costs.
- Easily controllable light intensity for greater energy savings.
- Perfect for table and floor lamps with a 3-way switch to adjust light levels..
- Long rated life reduces maintenance cost.
- Innovative materials reduce waste and environmental impact.
- Installs easily into new or retrofit applications.

#### **APPLICATIONS**

• Ideal for table and floor lamps with a 3-way switch in residential and hospitality applications.
