GE Lighting

The versatile brightness of the GE energy smart[®] LED MR16 lamps is not just something you see, it's something you feel.

Electronic Transformer Compatibility for **GE LED MR16 Replacement lamps**

4 Watt LED MR16 Replacement Lamps

7 Watt LED MR16 Replacement Lamps (35 Watt Halogen Equivalent, Generation 1)

7 Watt LED MR16 Replacement Lamps (50 Watt Halogen Equivalent, Generation 1)

7 Watt LED MR16 Replacement Lamps (35 Watt Halogen Equivalent, Generation 2)

7 Watt LED MR16 Replacement Lamps (50 Watt Halogen Equivalent, Generation 2)

The ratings used in the following tables are defined as follows:

"PASS" means during testing with this transformer, there was stable light output, no sign of flicker, and no audible noise.

"FLICKER" means flickering was observed during testing when the transformer was used with the number of lamps specified above.

"NOISE" means audible noise during testing when the transformer was used with the number of lamps specified above.

"CAUTION" means slightly flickering or noise was observed in some stage during testing when the transformer was used with the number of lamps specified above.

"FAILED" means severe flicker, noise or can't work normally during testing when the transformer was used with the number of lamps specified above.

IMPORTANT NOTICE - Because transformer equipment, applications, and conditions of use are many, varied, and beyond GE's control, this information necessarily is based on limited sample sizes and testing, and GE does not represent or warranty the suitability of a lamp for any particular application or use in any particular equipment. This information may be updated and changed at any time without notice as new equipment and information is developed.
