

A Better Warranty

Viribright LED Lamps are backed by a 3 year limited warranty without many limitations. As long as the product is used in accordance with the supplied user instructions we will replace, refund, or credit back the lamp sales price. Unlike others who use warranty as a marketing tool adding impossible caveats such as "based on 3 hours of use per day" or used within a prescribed temperature range, which would require an hour, meter or temperature recording device for proving the condition of use Viribright warranty is simple and straightforward.

Example: LEADING BRAND WARRANTY – 10 Year Warranty on A19 bulbs, and 5-year warranties on everything else which at first glance looks like a better warranty.

However, if you read the fine print their warranties are predicated on 3 hours per day use. So their "10 year warranty" is really only for $3 \text{ hours} \times 365 \text{ days} = 1095 \text{ hours} \times 10 \text{ years} = 10,950 \text{ hours}$; their so-called 5 year warranty is only for **5,475** hours.

Compare this with Viribright unlimited (even 24/7 usage) $24 \text{ hours} \times 365 \text{ days} = 8760 \text{ hours} \times 3 \text{ years} = 26280 \text{ hours}$!

So, here's the real bottom line:

Brand A Warranty: 5,475 to 10,950 hours depending on bulb

Viribright Stated Lifetime: 25,000 hours on all bulbs

The choice really is in the details.
