

LED Glass T8

DIMENSIONS

APPLICATION

The LT8 features a dual mode internal driver that automatically adapts to either ballasted fixtures or direct AC voltage formats. Simply plug it in and turn it on for energy savings over 40 percent! The product provides a natural lighting effect for use in general lighting applications, as well as instant energy savings – an environmentally friendly solution. The LT8 family of LED T8 lamps combine high-performance LEDs, highly-engineered optics to traditional T8 lamp form factors to bring you the most advanced line of LED T8 Lamps on the market. Multiple lumen packages mean there is an LT8 that is just right for your lighting needs.

FEATURES

- Instant Start
- Universal Voltage: 120-277V
- 50,000 Hour Life
- Mercury Free and Virtually no UV or IR Light
- Easily Retrofit into most common linear fluorescent fixtures
- Hybrid Tube: Compatible with most Electronic & Magnetic Ballasts & Direct Voltage Compatible
- Direct voltage format works on any two pin combination which greatly simplifies the rewiring process
