

LED BR30

Dimmable Glowing Effects

Curtis Mathes' dimmable BR30 offers a new lighting experience not only for dimming light but also for dimming the Correlated Color Temperatures (CCT) to provide a new feel of glowing effect. The gradual dimming feature enables light levels to dim to the warm tones of traditional bulbs from 3000K color temperature (warm light) to 2000K color temperature (very warm). The more you dim, the warmer the light you will get.
