

## Sunlite LED G16.5 Globe 5W (40W Equivalent) Light Bulb Candelabra (E12) Base, Warm White

Sunlite LED G16.5 Globe bulbs are extremely energy efficient and will greatly reduce your energy costs. These circular bulbs can last up to 25,000 hours making them virtually maintenance free. Sunlite's LED G16.5 bulbs contain no mercury elements and do not release any hazardous gasses so there is no need to worry in case a bulb breaks and no need for any special recycling as with competing bulbs. With their high efficiency, Sunshine Lighting's LED G16.5 Globe bulbs low wattage usage does not mean you lose out on brightness. This 120 volts, 5 Watt, G16.5 bulb features a Candelabra (E12) base, which produces a comfortable 2700K warm white light at 350 lumens, and can fit right into your highly stylized room, a modern backdrop, as well as any lighting design project.
