Notes: Compatibility tests are conducted by Soraa only as guidance for the user  
 All tests are conducted under bench conditions; results may differ from test results depending on conditions at the application site  
 Results may vary due to variability in component choices and manufacturing processes by the dimmer or transformer manufacturer  
 The lamp load (or number of lamps) should meet minimum load requirement of respective dimmer.

	Dims to < 20%
NC	Not Compatible
Blank cell	Not tested
