

# Transformer Compatibility - *Initial*

Not all transformers are compatible with LED lamps. TCP highly recommends that all installations be tested with samples prior to full scale installation.

## Dimming Compatibility - Magnetic Transformers

					Lutron Nova NLV-600						Lutron Diva DVLV-600P						Lutron Skylark SLV-600P						Lutron Maestro MALV-600					
					MR16s per Transformer						MR16s per Transformer						MR16s per Transformer						MR16s per Transformer					
Brand	Model	Input	Type	Power Rating	1	2	3	4	5	6	1	2	3	4	5	6	1	2	3	4	5	6	1	2	3	4	5	6
Advance	71A9743	120V	M	75W	1	2	3	4			1	2	3	4			1	2	3	4			1	2	3	4		

Key:

- Compatible: Very good dimming
- Compatible: Very good dimming although flicker at very bottom
- Incompatible

Not all transformers are compatible with LED lamps. TCP highly recommends that all installations be tested with samples prior to full scale installation.
