#### 7. Handling and Storage:

Avoid or limit dust formation when working with the product. Suitable soaking may limit the dust formation considerably.

There are no special storage requirements.

Fire hazard class: See item 5.

## 8. Exposure Control/Personal Protection:

Personal protection:

Wear respiratory protective equipment during dust-generating work. Type: P2, P3 or fresh-air supplied.

## 9: Physical and Chemical Properties:

Appearance: Brown expanded clay lightweight aggregate.

Odor: None.

## 10. Stability and Reactivity:

The product is stable.

## 11. Toxicological Information:

Inhalation: May irritate the respiratory tract.

Skin: No contact.

Eyes: May irritate the eyes.

Ingestion: Not relevant.

## 12. Ecological Information:

The product does not require classification according to the regulations of the Danish Environmental Protection Agency.

## 13. Disposal Considerations:

Can be disposed of as ordinary construction waste.

EAK code: 01 04 08.

# 14. Transport Information:

The product is not classified as hazardous.

## 15. Regulatory Information:

The product is not labelled as hazardous.

Youths under the age of 18 may not handle this product in a dusty environment (with the exception of apprentices).

# 16. Other Information:
