

VAPOR TIGHT FIXTURES

The *PLT* Vapor Tight Fixture is an energy efficient industrial fixture that features rugged and durable construction. The fixture incorporates a full metal housing channel inside a reinforced fiberglass housing with a high impact diffuser and positive cam latching.

Suitable for interior and exterior applications, this fixture can be surface or chain mounted. Custom designed for maximum performance in commercial, institutional and industrial environments where weathering, high temperature, humidity and dust or corrosive fumes are present.

• CONSTRUCTION

- Reinforced fiberglass housing
- Gasketing formed to housing provides a seamless seal
- Die formed galvanized steel mounting brackets with each fixture

• FINISH

- Baked enamel finish

• OPTICS

- High impact acrylic material standard

• ELECTRONICS

- Equipped with energy saving ballasts complies with federal energy efficiency standards
- Water tight hubs standard at each end accepts .5" conduit
- The protection class is IP65

• FEATURES

- Optional top only hub entry or combination top and end hub entry available
- UL listed for wet locations
