WARNING
DO NOT INSTALL LAMPS WITH THE FOLLOWING BALLASTS. DO NOT INSTALL LAMPS WITH BALLASTS NOT ON THIS LIST UNTIL COMPATIBILITY IS CONFIRMED WITH OUR TECHNICAL TEAM.

Some older ballast versions can cause over heating and damage to lamp and fixture. In case of doubt about compatibility, please contact us: techsupport@greencreative.com

Compatible in 2-lamp installations only

*GREEN CREATIVE has provided this ballast compatibility chart for guidance when selecting a ballast and lamp combination. Lamps were tested for compatibility with the above listed electronic ballasts. Ballasts that do not appear on the chart might still be compatible but have not been tested. All testing has been performed with a stable main supply. The quality of the local main, existing installation and wring, as well as different manufacturer versions of the above ballasts may affect lamp performance. Since no assurance can be provided regarding these factors, it is a general recommendation to perform a test on-site prior to installing the LED lamps.
