

Product Description

The Gama Sonic Royal Bulb **GS-98B-T** with triple lamp heads has now been upgraded with our latest innovative technology: Our Solar SMD LED Light Bulbs. These Solar Lamps will illuminate your yard and pathways and are the perfect energy-saving and money-saving replacement for electric or gas-powered outdoor lighting.

Classic Design Meets Modern Energy Efficiency: This rust-resistant powder-coated cast-aluminum solar light which features the attractive design of the New Orleans-streetlamp is manufactured with a Weathered Bronze finish and beveled glass panes, and has now been integrated with our latest revolutionary technology: our Solar LED Light Bulb. Standing 89 inches tall, this powerful Solar Lamp Post will add style and distinction wherever it's installed.

New Patent Pending LED Solar Bulb Technology: Each lamp head is powered by a single patent pending LED solar bulb. Small but powerful, these bulbs automatically turn on at dusk and in high brightness mode shines at 120 lumens each, that's 360 lumens total. The **GS-98B-T** not only gives your yard ample lighting, but also gives the lantern a traditional look since they resemble standard electrical light bulbs.

No Electrical Wiring: It requires no electrical wiring for installation, making it the perfect replacement for outdated electric or gas-powered outdoor lighting.

Solar Powered: Just set our Royal Solar Lamp at your desired location, and let the sun do the rest. The solar lights internal Lithium Ion battery packs charge when sunlight hits the integrated solar panels. At dusk, our revolutionary outdoor Solar Light Bulbs will turn on automatically and shine a warm white light through the beveled glass panes at a brightness of 360 lumens on a full solar charge.

Dusk to Dawn Automatic Operation: This Solar Light fixture is designed to provide automatic dusk to dawn performance at dusk after its battery has been fully charged during the day. If the panels aren't getting enough direct sun to charge the battery to capacity, switch LED-brightness mode to economy mode to extend nightly light duration.

Durable and Weather Resistant: Beyond providing a superior combination of light brightness and duration, Gama Sonic solar light fixtures are known for their physical durability. The mono-crystalline solar panel is protected by weather-resistant, cleanable tempered glass that helps ensure long-lasting reliability.

Built to Last: At Gama Sonic, our goal is to build the world's best solar lights by providing long lasting light fixtures that are simply built to last! Every light fixture has an integrated Lithium Ion battery pack that is good for about 1,000 charges. Once the battery exceeds its life – all you will need to do is simply replace the battery and you are good to go for the next 3 years.

Do not locate the light fixture in a shaded area: Recharging speed will vary based on weather conditions, but no charging will occur if direct sun does not shine on the solar panel.

WARNING: GAMA SONIC® Light bulbs are not to be used in other electrical sockets. These are low-voltage light bulbs that are built and designed for our products only!

Please note that it is highly recommended to secure the base into a solid surface such as concrete or wooden patio (bolts included). We highly recommend reading the instruction manual carefully to obtain the best results from your purchase.

Full Technical Specs

Model # GS-98B-T-WB

Product Description

LED Color	2700K
Technology	Solar LED Light Bulb
Lumens	360 (120×3)
# of LEDs	11×3 (33)
Battery	Li-ion
Voltage	3.2
Battery Capacity	1500 mAh
Power Source	Mono-Crystalline Solar Cell
Light Duration	Up to 8 hours
Measurements	27x27x89
Weight	29 lbs
Dimensions	35 x 24 x 14 in
