

Product Description

Gama Sonic IMPERIAL Bulb Solar Lamp GS-97B-F

The Gama Sonic Imperial Bulb **GS-97B-F** is a single lamp head that can be placed on any 3-inch outside diameter pole or 3-inch pier/flat base. This Solar Lamp will illuminate your front and back yard and is the perfect energy-saving and money-saving replacement for electric or gas-powered outdoor lighting.

Easy Solar DIY Solution: This Imperial Bulb **GS-97B-F** solar outdoor light fixture comes with a 3-inch fitter attached and will fit on any existing 3-inch outside diameter pole or 3-inch pier/flat base, and can be installed anywhere you choose where ample sunshine is available. (Pole not included)

Classic Design Meets Modern Energy Efficiency: This rust-resistant cast-aluminum solar lantern, which features the attractive design of a 19th-century lamp is manufactured with a powder-coated black finish and beveled glass panes, and has now been integrated with our latest revolutionary technology: our Solar SMD LED Light Bulb. This 25-inch high powerful Solar Lamp will add style and distinction wherever it's installed.

New Solar Technology: The GS Solar Light Bulb is Brand New Patent Pending Technology that takes the conventional idea of a light bulb and incorporates it into outdoor solar lamps and lamp posts. This Solar LED Bulb is designed to last up to 10 years! Combined with our patented cone reflector – this is a game changer that provides ample lighting with an elegant classic design. Small but powerful, this bulb automatically turns on at dusk and in high brightness mode shines at 180 lumens. The bulb not only gives your yard ample lighting, but also gives the lantern a traditional look since it resembles a standard electrical light bulb.

No Electrical Wiring: It requires no electrical wiring for installation, making our solar light the perfect replacement for outdated electric or gas-powered outdoor lighting.

Solar Powered: Just set our Imperial Bulb Solar Lamp at your desired location, and let the sun do the rest. The solar light's internal Lithium Ion battery pack charges when sunlight hits the 4 integrated solar panels. At dusk, our revolutionary outdoor Solar Light Bulb with 11 bright-white SMD LEDs will turn on automatically and shine through the beveled glass panes at a brightness of 180 lumens on a full solar charge.

Dusk to Dawn: This Gama Sonic Solar Light fixture is designed for dusk to-dawn-operation after its battery has been fully charged during the day. If the solar panel isn't getting enough direct sun to charge the battery to capacity, switch the LED-brightness mode to economy mode to extend nightly light duration. In either mode, Gama Sonic's patented cone reflector enhances the glow and multidirectional light dispersal.

Personalize Finial – This Solar Lamp features an acorn and eagle finial which are both included, giving you the option to choose your desired look.

Durable and Weather Resistant: Beyond providing a superior combination of light brightness and duration, Gama Sonic solar light fixtures are known for their physical durability. The monocrystalline solar panel is protected by weather-resistant, cleanable tempered glass that helps ensure long-lasting reliability.

Built to Last: At Gama Sonic, our goal is to build the world's best solar lights by providing long lasting light fixtures that are simply built to last! Every light fixture has an integrated Lithium Ion battery pack that is good for about 1,000 charges. Once the battery exceeds its life – all you will

need to do is replace the battery and you are good to go for the next 3 years. Additionally, our Solar SMD LED Light Bulb will last for 100,000 hours and never need replacing, lasting the lifespan of the lamp itself which is roughly 10 years.

Do not locate the light fixture in a shaded area: Recharging speed will vary based on weather conditions, but no charging will occur if direct sun does not shine on the solar panel.

WARNING: GAMA SONIC® Light bulbs are not to be used in other electrical sockets. These are low-voltage light bulbs that are built and designed for our products only!

Please note that we highly recommend reading the instruction manual carefully to obtain the best results from your purchase.

Full Technical Specs – IMPERIAL Bulb Solar Lamp GS-97B-F

Model #	GS-97B-F
LED Color	2700K
Technology	Solar LED Light Bulb
Lumens	180
# of LEDs	11
Battery	Li-ion
Voltage	3.2
Battery Capacity	3000 mAh
Power Source	Mono-Crystalline Solar Cell
Light Duration	Up to 12 hours
Measurements	10.5 x 10.5 x 22.5 in

Additional Information

Weight 10 lbs

Dimensions 12 x 12 x 23 in
