

## Product Description

The Gama Sonic Windsor Solar Lamp **GS-99-F** is a single lamp head that can be placed on any 3-inch outside diameter pole or 3-inch pier/flat base. This Solar Lamp will illuminate your front and back yard and is the perfect energy-saving and money-saving replacement for electric or gas-powered outdoor lighting.

**Classic Design Meets Modern Energy Efficiency:** This rust-resistant cast-aluminum solar lantern, which features the attractive design of a 19th-century lamp is manufactured with a powder-coated black finish and beveled glass panes. This 20-inch high powerful Solar Lamp will add style and distinction wherever it's installed.

**No Electrical Wiring:** It requires no electrical wiring for installation, making our solar light the perfect replacement for outdated electric or gas-powered outdoor lighting.

**Solar Powered:** Just set our Windsor Solar Lamp at your desired location, and let the sun do the rest. The solar lights internal Lithium Ion battery pack charges when sunlight hits the 6 integrated solar panels. At dusk, 12 bright-white LEDs will turn on automatically and shine through the beveled glass panes at a brightness of 150 lumens on a full solar charge.

**Dusk to Dawn:** This Gama Sonic Solar Light fixture is designed for dusk to-dawn-operation after its battery has been fully charged during the day. If the solar panel isn't getting enough direct sun to charge the battery to capacity, switch the LED-brightness mode to economy mode to extend nightly light duration. In either mode, Gama Sonic's patented cone reflector enhances the glow and multidirectional light dispersal.

**Durable and Weather Resistant:** Beyond providing a superior combination of light brightness and duration, Gama Sonic solar light fixtures are known for their physical durability. The monocrystalline solar panel is protected by weather-resistant, cleanable tempered glass that helps ensure long-lasting reliability.

**Built to Last:** At Gama Sonic, our goal is to build the world's best solar lights by providing long lasting light fixtures that are simply built to last! Every light fixture has an integrated Lithium Ion battery pack that is good for about 1,000 charges. Once the battery exceeds its life – all you will need to do is replace the battery and you are good to go for the next 3 years.

**Do not locate the light fixture in a shaded area:** Recharging speed will vary based on weather conditions, but very little charging will occur if direct sun does not shine on the solar panel.

## Full Technical Specs

<b>Model #</b>	GS-99F
<b>LED Color</b>	6000K
<b>Lumens</b>	150
<b># of LEDs</b>	12
<b>Battery</b>	Li-ion (2)
<b>Voltage</b>	3.2V
<b>Battery Capacity</b>	1500 mAh
<b>Power Source</b>	Mono-Crystalline Solar Cell
<b>Solar Panel</b>	3W
<b>Light Duration</b>	Up to 12 hours
<b>Measurements</b>	11 x 11 x 20 in

**Weight** 8 lbs  
**Shipping Dimensions** 14 x 21 x 12 in
