

Product Description

Everest Solar Lamp Post

The Gama Sonic Everest Solar Lamp **GS-109S** will illuminate your yard and pathways and are the perfect energy-saving and money-saving replacement for electric or gas-powered outdoor lighting.

Easy Solar DIY Solution: This Everest solar outdoor light fixture comes with all the hardware needed for mounting this unit anywhere you choose where ample sunshine is available

New Patent Pending LED Solar Bulb Technology: The Everest solar lamp is powered by a single patent pending LED solar bulb that takes the conventional idea of a light bulb and incorporates it into outdoor solar lamps and lamp posts.

No Electrical Wiring: It requires no electrical wiring for installation, making it the perfect replacement for outdated electric or gas-powered outdoor lighting.

Solar Powered: Just set our Everest Solar Lamp at your desired location, and let the sun do the rest. The solar lights internal Lithium Ion battery packs charge when sunlight hits the integrated solar panel. At dusk, our revolutionary outdoor Solar Light Bulb will turn on automatically and shine a warm white light at a brightness of 200 lumens on a full solar charge.

Warm White Light: Our Everest solar lamp delivers warm white light, creating the natural look of incandescent light in a solar lamp setting and has a high/economy switch for your convenience. In the economy setting, the light duration will increase.

Dusk to Dawn: This Solar Light fixture is designed for dusk to-dawn-operation after its batteries have been fully charged during the day. If the panel isn't getting enough direct sun to charge the batteries to capacity, switch LED-brightness mode to economy mode to extend nightly light duration.

Durable and Weather Resistant: Beyond providing a superior combination of light brightness and duration, Gama Sonic solar light fixtures are known for their physical durability. The monocrystalline solar panel is protected by weather-resistant, cleanable tempered glass that helps ensure long-lasting reliability.

No maintenance is required: The Everest Solar Lamp is constructed with weather resistant and rust-resistant powder-coated cast aluminum.

Built to Last: At Gama Sonic, our goal is to build the world's best solar lights by providing long lasting light fixtures that are simply built to last! Every light fixture has an integrated Lithium Ion battery pack that is good for about 1,000 charges. Once the battery exceeds its life – all you will need to do is simply replace the battery and you are good to go for the next 3 years.

Do not locate the light fixture in a shaded area: Recharging speed will vary based on weather conditions, but no charging will occur if direct sun does not shine on the solar panel.

WARNING: GAMA SONIC® Light bulbs are not to be used in other electrical sockets. These are low-voltage light bulbs that are built and designed for our products only!

It is highly recommended to secure the base into a solid surface such as concrete or wooden patio (bolts included). We highly recommend reading the instruction manual carefully to obtain the best results from your purchase.

Full Technical Specs – Everest Solar Lamp Post

Model #	GS-109S
LED Color	2700K
Technology	Solar LED Light Bulb
Lumens	200
# of LEDs	11
Battery	Li-ion
Voltage	3.2
Battery Capacity	3000 mAh
Power Source	Mono-Crystalline Solar Cell
Light Duration	Up to 12 hours
Measurements	10.5 x 10.5 x 102 in
Weight	17 lbs
Dimensions	33 x 13 x 22 in
Color	Black
