

PRODUCT WARRANTY

Keystone Group will cover any manufacturing defect for a period of three (3) years from the date of purchase with original proof of purchase. Keystone Group will either repair or replace your product at our discretion. The warranty is not transferable and is only valid to the original purchaser. This warranty does not apply to the following: acts of God, product that has been modified, opened, disassembled or unauthorized repair, products not used in accordance with the provided instructions, damages caused by shipping, improper handling, accident or misuse. The finish of any part of the product, scratches, weathering, corrosion, discoloration, fading, these are all considered normal wear and tear. This warranty does not cover any damages of merchandise in transit, any damages need to be reported to the carrier and a claim needs to be filed with the carrier.

FCC Information

This device complies with Part 15 of the FCC Rules. Operation is subject to the following 2 conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation. Warning: Changes or modification to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. NOTE: This equipment has been tested and found to comply with the limited Class B digital service, pursuant to Part 15 of the FCC Rules. Their limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If the equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on; the user is encouraged to try to correct the interference by one or more of the following measures: reorient or relocate the receiving antenna.
