LUNERA MH LED VERTICAL FANLESS E39

145W-82W LED Replacement for Metal Halide Lamps Type A - Ballast Driven (E39/EX39 Mogul Base in Ventilated, Non-Lensed Fixtures)

Description

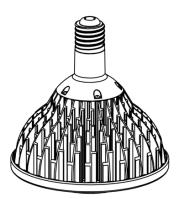

The **LUNERA MH LED VERTICAL FANLESS E39** is a plug and play (Type A, ballast driven) LED replacement for a Metal Halide (MH) lamp with a mogul (E39) base. It is intended for installation in suspended HID fixtures that are non-lensed and have top vents for adequate airflow. This fanless LED MH lamp replaces 400W/250W/175W MH lamps and delivers up to 16,300 lumens of beautiful LED light. It is ideal for installations with low ambient noise level.

Lunera's BallastLED technology makes the lamp truly plug and play by allowing it to operate directly off of the existing ballasts. Simply change the lamp with no additional fixture or socket re-wiring required.

This lamp incorporates Thermal IQ, a proprietary Lunera technology which uses airflow convection and thermal dimming to keep the lamp cool, enabling it to operate reliably up to 150°F ambient.

It is rated at 50,000 hours and is backed by a five-year warranty. This lamp does not contain mercury, allowing for non-hazardous waste disposal.

For Open Bottom/Open Top Fixtures

Clear Lens

400W/250W/ 175W 8" Diameter

MH Lamp	CWA	Lunera Lamp		
Wattage Replaced	Ballast Type	Lamp Wattage	Max Lumens	
400W	M59	145W	16,300	
250W	M58	91W	10,500	
175W	M57	82W	9,100	

Features

- Directly replaces 400W/250W/175W MH lamps with 145W~82W LED
- Type A (ballast driven) Installation; supports existing MH CWA ballast
- Delivers up to 16,300 (145W)/10,500 (91W)/9,100 (82W) lumens of usable light with >80 CRI
- CCT 3500K, 4000K and 5000K
- Supports E39/EX39 mogul base HID sockets
- Thermal IQ to support ambient temperatures up to 150°F without a cooling fan
- 50,000 hours life to L70 with 5 Year Warranty
- Intended for installation in suspended HID fixtures with an open bottom/vented top

* Do NOT install this lamp into line voltage or with an LED driver.

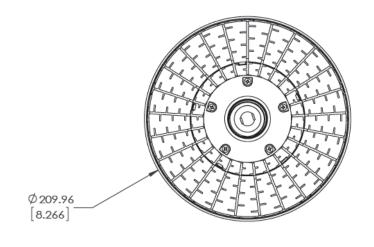

** System Power equals lamp power + ballast power.

*** Thermal IQ is a proprietary Lunera technology which enables the LUNERA MH LED VERTICAL FANLESS to operate reliably up to 150°F ambient by dimming itself based upon thermal characteristics of the fixture in which it has been installed. This lamp is not intended for dimming installations

Product Dimensions

Measurements are rounded up. Dimensions are shown in millimeters. Please contact your Lunera representative for exact dimensions.

CAUTION

Turn power OFF to the fixture prior to installation.

CAUTION - IF THE LAMP OR LUMINAIRE EXHIBITS UNDESIRABLE OPERATION (BUZZING, FLICKERING, ETC.), IMMEDIATELY TURN OFF POWER, REMOVE LAMP FROM LUMINAIRE AND CONTACT MANUFACTURER.

Application Notes

- This product is NOT rated for direct installation into line voltage.
- This lamp is compatible with Metal Halide 400W, 250W and 175W CWA ballasts.
- Do NOT install this lamp with High Pressure Sodium ballasts, HX-HPF ballasts, or LED drivers.
- This lamp is suitable for installation into open and ventilated fixtures.

Compatible Fixtures

The LUNERA MH VERTICAL FANLESS is intended for use in suspended, non-lensed HID pendant fixtures with ventilation at the top. The reflector can be aluminum, acrylic or glass, but an open bottom/open top configuration is necessary to ensure adequate airflow for this lamp.

Incompatible Fixture Types

Do not install the LUNERA MH VERTICAL FANLESS in highbay fixtures with reflectors that are lensed and do not have top ventilation. Additionally, do not use this lamp in shoe box, wall pack, surface mount or recessed HID fixtures.
