

PHOTOLUMINESCENT EXIT SIGNS

FREELITE™ Photoluminescent Emergency Exit Signs require no electrical power for operation other than the normal ambient light in your building. FREELITE signs absorb light, then their self-illuminating materials shine bright when the lights go out. They eliminate costly testing & maintenance, install quickly and have no electrical circuits to fail in emergencies. They are also LEED points qualified and Tritium-free (non-radioactive).

- No additional electricity required (stores and re-emits ambient light; minimum 5 footcandles required)
- Extremely low maintenance (no batteries or lamps to fail, no periodic testing required)
- Easy, quick installation (uses standard mounting brackets)
- Non-radioactive (Tritium-free) / Fully recyclable and environmentally friendly
- Many styles, viewing distances, and colors
- Made in the U.S.A.
