Organic Energy™

N-P-K

- Nitrogen (N) is slow release and derived from sustainably sourced fermented cotton seed meal.
- Phosphorus (P) and Potassium (K) are derived from sustainably sourced fish bone meal.

Minerals

- Provide the essential vitamins plants need for vigorous development, derived from locally sourced Basalt.

Biochar is life supporting soil carbon that is highly porous and important in plant development.

- Provides superior habitat for microbial and fungal development
- Increases nitrogen delivery to plants (Carbon Link™)
- Reduces nitrate leaching
- Increases soil moisture retention and fertilizer efficiency

Soil Humus

- Sourced from sustainable organic matter
- Provides humic acids required for plant vigor

Mycorrhizae and Mycelium

- Beneficial soil fungi connect plant roots using Mycelium to form a Mycorrhizal association. Vigorous root development ensues, resulting in better nutrient transfer and stronger plants.

USES for PermaMatrix® BSP Grow

- Add to potting soils for planter pots
- Incorporate in plant beds
- Apply directly to lawns

Easily applied using a broadcast or drop spreader at the recommended rates.

PermaMatrixBSP.com/apprates

A CARBON based fertilizer containing biochar, minerals, organics and living micro-biological elements that replenishes tired and worn out soil the same way that Nature does.

PermaMatrix® BSP **GROW** contains biochar — important biological carbon that:

- improves soil structure
- retains soil moisture
- supports living soil micro-organisms

PermaMatrix® BSP **GROW** delivers nutrients through soil to the plant using a unique CARBON LINK™. It's the organic solution to overuse of petroleum based fertilizers.

This high Carbon fertilizer increases biological activity in soil while providing a long lasting nutrient supply. Nutrients are released naturally and continuously throughout the growing cycle.

PermaMatrix®BSP Grow

4-9-3

General Purpose Fertilizer for All Plants Guaranteed Analysis

Total Nitrogen (N).....	4%
3.65% Water Insoluble Nitrogen	
0.35% Water Soluble Nitrogen	
Available Phosphate (P ₂ O ₅).....	9%
Soluble Potash (K ₂ O).....	3%
Magnesium (Mg).....	1.5%
Iron (Fe).....	0.5%

Derived from: Cottonseed Meal, Fish Bone Meal, Langbeinite, Basalt Powder

ALSO CONTAINS NON-PLANT FOOD INGREDIENTS

Microbial Inoculants (Nitrogen Fixers):

Azospirillum lipoferum	7.35 x10 ⁷ CFU/lb
Azospirillum brasilense.....	7.35 x10 ⁷ CFU/lb

Microbial Inoculants (Biochemical Decomposers):

Bacillus subtilis	1.37x10 ¹² CFU/lb
Bacillus licheniformis.....	1.10x10 ¹² CFU/lb
Bacillus amyloliquefaciens.....	2.75x10 ¹¹ CFU/lb

Endomycorrhizal Fungi:

Glomus intraradices.....	0.275 propagules/g
Glomus mosseae.....	0.275 propagules/g
Glomus aggregatum	0.275 propagules/g
Glomus etunicatum	0.275 propagules/g

Soil Amending Ingredients: Reed Sedge Peat, Doug Fir Forest Biochar

Directions For Use: Broadcast, Drill or Apply by Hand to all soils to enhance biological activity and provide nutrients to plant
Store in a cool dry place

PermaMatrix Inc. PO Box 1210, Fairview, OR 97024 www.permamatrixbsp.com
