

# Wafer™ LED

Recessed Downlighting for Shallow Ceiling Plenum Applications

## Ultra-Thin Recessed Downlighting with Remote Driver Box for Quick, Simple and Housing-Free Installation.

Affordable, Wafer 3", 4" and 6" LED Downlights provide high-quality light output and efficiency while eliminating the need for recessed housings. The innovative, slim design allows for easy retrofit, remodel or new construction installation from below the ceiling. **With its narrow design, the Wafer can be installed in applications with only 2" plenum clearance.** The Wafer LED downlight is wet location listed – making it ideal for use in a breadth of outdoor residential, hospitality, commercial and multifamily applications.

### Key Features:

- Quality, housing-free downlighting ideal for shallow ceilings
- IC rated – safe to install in direct contact with insulation
- Edge-lit LED technology provides even illumination
- Available in 2700K, 3000K, 3500K, 4000K, and 5000K color temperatures
- 120V only or universal 120V-277V driver options
- Dimmable to 10%
- Suitable for wet locations

# Wafer™ LED Recessed Downlight

The ultra-thin Wafer LED redefines recessed downlighting installations. With the narrow design and remote driver box, the Wafer LED can be installed in confined, hard to reach spaces such as closets, bathrooms, hallways, stairwells and outside soffits. These and other areas with shallow plenum often make it impossible to install traditional recessed housings.

**Make installation quick and simple with the Wafer LED series.**
