

LED Speaker Downlight

Recessed Downlight with Integrated Bluetooth® Speaker

Perfect Marriage of Light and Sound

Our recessed 6SL Wireless LED Speaker Downlight module provides an easy and efficient way to light up a room and enjoy music for the entire family. It's perfect to retrofit into existing 6" downlight cans or new construction and remodel applications. Wirelessly stream audio from your mobile device via Bluetooth®. The 6SL Wireless LED Speaker Downlight is compatible with all music streaming apps. Easily pair wirelessly up to 8 units for a more enhanced and balanced sound experience. Internal Li-ON battery included for up to 6-hr play time without light being on. Ideal for residential, light commercial and multifamily applications.

Key Features:

- 90CRI standard
- Available in 2700K, 3000K and 4000K
- Fits in standard 6" apertures and recessed cans
- Speaker wirelessly connects to most Bluetooth-enabled devices
- Wirelessly pair up to 8 speaker downlights
- Wet location listed
- TRIAC dimmable to 10%

6SL Wireless LED Speaker Downlight

Easily install in 4 simple steps

1 Pair first speaker light (MASTER) to your Bluetooth® enabled device prior to installation.

2 Sync additional (SATELLITE) units (up to 7) to MASTER unit prior to installation.

3 Disconnect power at the circuit breaker, then install to recessed housing.

4 Reconnect power at circuit breaker, use light as usual, and enjoy music from any streaming service you like.
