

# Lithonia OneUp™ LED Downlights

Economical, Recessed Lighting With a Unique, "Canless" Design

## Quick Install Direct-Wire Downlights with an Integrated Driver and Junction Box

Lithonia OneUp™ are quick and easy-to-install direct-wire downlights that feature a unique "canless" design. These all-in-one LED fixtures include an integrated junction box for direct wiring, require no tools (other than a hole saw for your ceiling cutout) and take less than 1/3 of the time to install versus a conventional incandescent can. Think outside the can and choose the one solution that has it all... Lithonia OneUp.

### Features

- An innovative "canless" design for fast and simple installation without the need for tools
- IC-rated 3", 4" and 6" round baffle downlights; 4" and 6" round adjustables or squares
- 2700K, 3000K, 4000K or 5000K; 90+ CRI
- ENERGY STAR® certified and can be used to comply with Title 24, JA8 high efficacy light source requirements
- Suitable for Damp or Wet Locations – see specifications for restrictions
- Dimmable down to 10% - see specifications for factory-recommended dimmers
- Matte white, oil rubbed bronze or brushed nickel finishes

# Lithonia OneUp™ LED Downlights

The IC-rated Lithonia OneUp™ typically installs in less than 2 minutes – less than 1/3 of the time of an average recessed can!

The integrated steel junction box - with pre-installed, non-metallic bushings - allows wires to be fed through without the hassle of knockouts. The captive junction box door provides easy access to pre-installed quick connectors for straight-forward wiring.

Side mounted spring clips secure the fixture in place to plaster, sheet rock, or plywood ceilings from 1/2" up to 1-1/2" thick.

Lithonia OneUp provides a complete and simple "tool-less" assembly... all in One package!
