

LED V-COOLER

INSTALL INSTRUCTIONS

PLEASE FIND A QUALIFIED ELECTRICIAN FOR INSTALLATION. Please read the instructions before you install and use the luminaire.

DANGER – RISK OF SHOCK – DISCONNECT POWER BEFORE INSTALLATION

WARNING – Risk of fire or electric shock. Installation requires knowledge of luminaires electrical systems. If not qualified, do not attempt installation. Product must be installed in accordance with the National Electrical Code or your local electrical code. If you are not familiar with these codes and requirements, contact a qualified electrician.

WARNING – Risk of fire or electric shock. Install luminaires that have the construction features and dimensions shown in the photographs and/or drawings and where the input rating of the retrofit kit does not exceed the input rating of the luminaire.

Do not make or alter any open holes in an enclosure of wiring or electrical components during installation.

WARNING – To prevent wiring damage or abrasion, do not expose wiring to edges of sheet metal or any other sharp objects.

WARNING – Risk of fire or electric shock. Check the existing wiring for damage before installing. Do not install if existing wires are damaged.

DO NOT USE WITH DIMMERS.

SUITABLE FOR DAMP LOCATIONS.

THIS DEVICE IS NOT INTENDED FOR USE WITH EMERGENCY EXITS.

WARNING DISCONNECT POWER BEFORE INSTALLING OR SERVICING.

1. Turn off Power.
2. Use screws to mount fixture to a surface.
3. Cut one male connector. Wire to the main: Red is Live, Black is Neutral and Yellow is ground.

Up to 10 lamps can be connected in a series not to exceed 200W of total power after connection.
