OK	Dims to 15 - 30%
NC	Not Compatible

90+ LIGHTING NOTES

- 1) This dimmer compatibility chart is provided by 90+ Lighting as a guidance for selecting a dimmer and lamp combination.
 2) The results may be different for each application depending on the installation conditions.
 3) 90+ Lighting reccomends to perform a previous test before the installation to verify the dimmer compatibility.
 4) We recommend using a 1/5 loading factor for incandescent dimmers when using with 90+ lamps.
 For example: a 400W dimmer should be loaded with a number of lamps whose combined power do not exceed 80W.
