

2.4G Wireless Dimming & CCT Adjustable LED Panel

THE HANDHELD REMOTE CONTROLLER

 	 Turn on  Turn off
	Matching code for light Long pressing the 'ID' button will keep the controller's indicator on, then turn on the light and release the 'ID' button after the light flashes, matching code complete. Matching code for several lights simultaneously is available.
	Release the code and disconnect light from remote controller Press the button  together, then turn on the light, the light will flash to finish releasing the code on the lights.
   	Group selecting button Grouping lights (matching code process needs to be completed first). Turn off the lights, continue pressing the group selection button for 3s, then turn on the lights, the lights will flash to finish grouping.
	Turn-off delay Press the  button, the delay function will begin after the light flashes once. The light will be turned off after 10s. Pressing the 'ON' button will cancel the delay function.
	All Groups are selected
Color temperature selecting/saving After selecting the color temperature, press the button "OFF" then turn on the light to save the color temperature.	
 5000K  4000K	 3500K  3000K
 25% brightness  50% brightness	 75% brightness  100% brightness
 Increase brightness  Decrease brightness	 Decrease color temperature  Increase color temperature

* After turned on, the light will automatically detect the 0-10v dimmer setting to determine the brightness. It will default to 100% brightness if there is no dimmer input.

* If the dimmer is used, the light brightness will convert to 0-10v dimmer's current brightness setting.

* If the remote controller is used, the light brightness will only change from its current brightness.

2.4G Wireless Dimming & CCT Adjustable LED Panel

THE WALL TYPE REMOTE CONTROLLER
