Control your lighting Anywhere at Anytime.

Euri Smart Lighting made to add simplicity, efficiency, and color to every home, this Smart Wi-Fi LED bulb allows you to control your home's lighting from anywhere, anytime. No hub is required, simply connect to your home's Wi-Fi to be effortlessly controlled with the free Life in Sync mobile app for smartphones and tablets (IOS and Android).

Getting Started

1

Life in Sync App

Download the LIS App from the Apple App StoreSM or Android Google PlayTM store.

2

Launch the App and tap:
"Register" for a new account or
"Login" for an existing account.

3

Enter Mobile Number or E-Mail address, then tap **"Continue"**.

(If you're using a Mobile Number a verification code will be sent to your device.)

4

Create a Password then tap **"Done"**.

Adding Device

5

Install & power On Euri smart bulb, then tap **"Add Device"**.

To add additional devices:
tap the **plus (+)**
icon in the upper
right-hand corner.

6

Make sure you
are connected to
a **2.4GHz WiFi
Network** then tap
"confirm".

Compatible only
with **2.4GHz
WiFi Network**

7

Power On Euri smart bulb and confirm the light is blinking. Then tap **"Confirm light blinks rapidly"**.

Note: Turn off and on your light three times. Wait another five seconds until the SmartBulb blinks three times.

8

Enter the WiFi password. Then tap **"Confirm"**.

9

The status window will appear once the device has 100% successfully connected and the 3 bullets on the bottom will have green check marks.

Note: If unsuccessful, the **"Failed to Add"** screen will appear. Tap on **"more details"** for more information. Then repeat the previous steps.

10

To rename the bulb, tap the **"Pen"** icon, enter the new name and tap **"Done"**.

Your smart bulb now is ready to be controlled with **Life in Sync App**.

Note: Constant power to the bulb is required to use the app.
