

# S29752

60W/LED/HID/MB/5000K/100-277V/EX39  
60 watt - LED HID Replacement; 5000K; Mogul extended base;  
Adjustable beam angle; 100-277 volts

## Features

- Replaces HID, CFL, and Incandescent
- Direct wire range voltage 100-277V
- Approved for totally enclosed fixtures
- Hi bay, low bay and post top
- Light panels lock into place creating 3 separate beam angle options
- IP65 rated
- 5 year limited warranty

S29752

Specification note: Power Factor >0.9; Operating temperature range -20°C to 65°C; Operating Frequency 50-60Hz; Working Voltage AC 90-305V

Optional accessory: In-line surge protector 80-929

\*Hi-PRO lamps are manufactured with a new Thermal Management circuit design (Temperature Control). If the lamp heats up in an application to 110°C, it will automatically reduce itself to 70% of rated wattage. If the ambient temperature continues to increase and reaches 120°C, it will reduce itself to 50% of rated wattage. In the event this happens, the lamps will remain at that level until they are turned off at which time they will reset and come back on a full brightness.
