

# LED SOLAR OUTDOOR LIGHT

WITH MOTION SENSOR

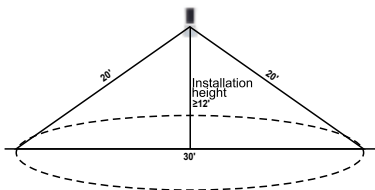

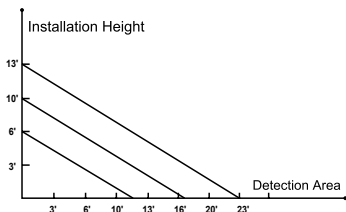

## USER MANUAL

1.5 Watts - 220 Lumens

REACH EN62471

## Detection Area

## Operation

Press the Mode Button on the back of the device to toggle between Mode A, Mode B and Off.

**Mode A:** Will turn the front light on to full brightness (220 Lumens) and then reduces the brightness by 50% after 10 seconds of no motion.

**Mode B:** will turn on the front light to full brightness (220 Lumens) and then turn completely off after 10 seconds of no motion.

The back light is always on in both modes. This light will work for several nights on a full charge with a standby time of 140 hours.
