

## Features & Specifications

## LED Ready WRAPAROUND

**INTENDED USE** – These PLT LED ready wraparound fixtures use separate tubes lights for easy replacements rather than needing to replace the entire fixture when the LEDs begin to fail. Wraparound fixtures deliver light downwards for directional illumination. It consumes less power and lasts longer than their fluorescent equivalents, saving money on energy costs. The PLT wraparound fixtures can be used in a variety of locations around your home or business.

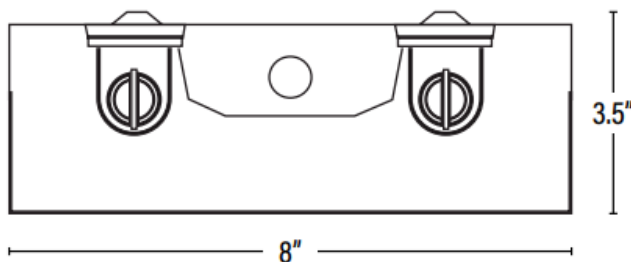

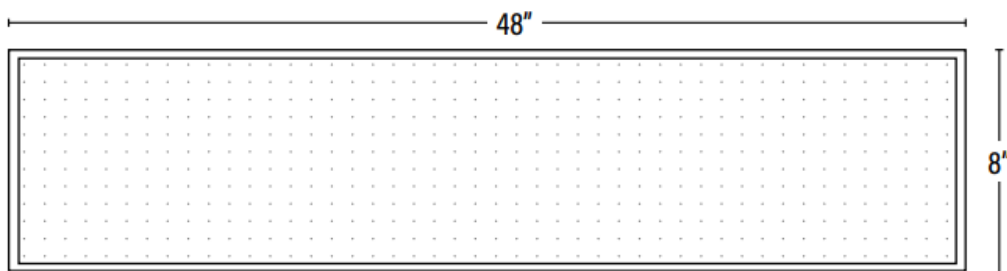

**CONSTRUCTION** – Galvanized steel housing with a low-glare frosted acrylic lens. White enamel finish.

**ELECTRICAL** – Input voltage of 120-277 VAC. Features 4 non-shunted LED ready sockets and can be used with both single-ended and double-ended tubes.

**LISTINGS** – UL Certified to safety standards for damp locations.

**MOUNTING** – Suitable for surface and suspended mounting.

**WARRANTY** – 3-year warranty for this led ready wraparound fixture. PLT products that are damaged or defective will be repaired or replaced at PLT's choosing for a period of 5 years. Contact 1-800-624-4488 for more information.
